Andersen Tax
http://www.wtas.com

Description of organization: Andersen Tax is one of the largest national independent firms focused on providing a wide range of tax, valuation, financial advisory and related consulting services. Andersen Tax has a growing presence in Europe through Andersen Tax Global with 900 people in 26 offices worldwide. At Andersen Tax, our employees are given the opportunity to work on complex projects with marquee clients and the ability to advance professionally in a workplace setting that both cultivates and rewards the enhancement of technical knowledge and skills. We foster an environment based on learning and allow our employees to grow through hands on work experience, participation in training programs, and strong mentoring relationships.

Type: Accounting Services, Financial Services

Job/Internship:
Intern - Tax Services
Intern - Valuation Services

Valuation Interns serve as members of client service teams. Interns are staffed on engagements similar to an Associate and receive formal and on-the-job training to hone and develop their technical skills. The Valuation Services group performs valuations of closely held companies, intangible assets, debt instruments, and other assets for tax and financial statement reporting, mergers and acquisitions, strategic planning, and other purposes. Interns assist in company, industry and market research, spreadsheet modeling, financial analysis and report writing.

Position(s): Full-time, Internship
Work Location(s): San Francisco, CA

Arista Networks
http://www.aristanetworks.com

Description of organization: Arista delivers Cloud Networking solutions for large datacenter and computing environments. Arista builds and sells 10/40/100 gigabit ethernet switches with outstanding scalability, robustness, and price-performance. At the core of Arista's platform is EOS™, a pioneering open, extensible, fault-tolerant software architecture. Arista's team is built of experienced management and engineering talent from leading networking companies and universities.

Type: Computer Hardware, Computer Software

Job/Internship:
Software Engineer 820492

The core responsibility is to deliver product features. A major part of this is writing the code that drives our products. But the role of a software engineer is much bigger than just being a coding machine. Software engineers work on the whole development process, including:
* deciding what features to build
* driving the design
* writing the code (of course)
* pushing testing
* documenting the feature
* supporting customers in the field
Along the way, you might:
* extend and improve the test infrastructure
* hack on our engineering tools, including p4, django, python, rpm, ...
* work with sales and business development

Degree(s): Bachelor, Masters, Doctoral, Postdoc, Professional
Major(s): Computer Science, Electrical Engineering and Computer Science
Position(s): Full-time, Internship
Work Location(s): Santa Clara & San Francisco CA

Software Engineer Intern

TBD

**Degree(s):** Bachelor, Masters
**Major(s):** Computer Science
**Position(s):** Internship
**Work Location(s):** San Francisco, CA and Irvine, CA
**Box Recruiting**

http://www.box.com

**Description of organization:** Box provides a secure way to share content and improve collaboration on any device. Desktop, tablet or mobile. From huge corporations to mom and pop stores, Box believes technology should never limit anything you do. Businesses of any size can be more productive, inventive and powerful on Box. The company is well funded by top VC firms like Andreessen Horowitz, Draper Fisher Jurvetson and U.S. Venture Partners. Box is proud to be on Forbes’ list of America’s Most Promising Companies, is used in 225,000 businesses - including 99% of the Fortune 500 – and is the go-to product of 25 million people.

**Type:** Computer Software

**Job/Internship:**
Technical Operations intern, Box Consulting intern, Business Analytics intern, Design intern, Engineering Program Management intern, Finance intern, Marketing intern, Platform intern, Recruiting intern, Software Engineering intern, Strategic Planning

As a Software Engineering Intern at Box, you’ll be part of a tight knit group of engineers who have the same passion for building real solutions as you. You will learn how to build and ship code, and gain better understanding of the full development cycle. Interns are encouraged and empowered to drive their own development projects—ask questions, design solutions, and own the results. They are expected to bring their ideas to the table and to participate in our architectural debate.

**Structure:**
As an intern, you will work as a full-time member on a small team within the larger engineering organization. In addition, you will work with a mentor and manager to design your own project and implement the solution.

Examples of past intern projects: https://cloud.box.com/enginternprojects2013

---

**Breakthrough San Francisco**

http://www.sfds.net/breakthroughsanfrancisco

**Description of organization:** Breakthrough Collaborative, a national non-profit with locations in 27 cities including San Francisco, Oakland, San Jose, and Sacramento, fosters educational equity through an innovative, two-pronged approach. We provide intensive academic enrichment and ongoing support to motivated students with limited educational opportunities, ensuring they are academically successful and on the path to college. Simultaneously, we train outstanding college students from across the country for work as tomorrow's teachers and urban educational leaders. The hallmark of our program for college students is a nine-week summer teaching residency.

**Type:** Education/Higher Education

**Job/Internship:**
Summer Teaching Fellow

During Breakthrough's nine-week summer teaching residency, you will receive extensive training, continuous support, and the opportunity to lead a classroom in math, science, literature, writing, or social studies. Breakthrough’s teaching residency is one of the most rigorous in the country and provides intensive training on instruction, assessment, student engagement, and classroom management. Whether you have always wanted to become a teacher or are considering it for the first time, teaching at Breakthrough will help prepare you for a career in education and will provide you with skills that are transferable to any profession.

Chevron Corporation
(Finance)

Description of organization: Chevron is one of the world's largest integrated energy companies. Headquartered in San Ramon, California, we conduct business worldwide. We are engaged in every aspect of the oil and natural gas industry, including exploration and production, manufacturing, marketing and transportation, chemicals manufacturing and sales, geothermal, and power generation. We're also investing in renewables and advanced technologies. Our diverse and highly skilled global workforce consists of more than 58,000 employees and about 4,000 service station employees. As a company and as individuals, we take great pride in contributing to the communities where we live and work. We also care deeply about the environment and are proud of the many ways in which our employees work to safeguard it.

Type: Accounting Services, Energy, Financial Services

Job/Internship:
Finance Development Program (FDP) Intern

We view our summer internship positions as opportunities for candidates to do well and potentially join our full-time program after graduation. For reference, Chevron’s Finance Development Program’s mission is to attract, develop, and retain highly talented undergraduates who are finance/accounting oriented individuals and have the potential to be future finance managers and leaders. The full-time program provides members a variety of challenging rotational assignments (three different six month assignments on average) that enhance their existing skill sets and expose them to both corporation and operating company environments. Summer interns will work in a single Finance/Accounting work group over 10-12 weeks in the Bay Area and have an opportunity to network and socialize.

Degree(s): Bachelor
Major(s): Business Administration, Economics
Position(s): Paid, Summer Job, Internship
Work Location(s): San Ramon, CA

ClickTime.com, Inc.
Talent

Description of organization: We’re ClickTime. We believe in empowering organizations to become efficient, resourceful, and successful through the power of the cloud – and a human touch. We’re best known for our world-class timesheet management software used by thousands of customers worldwide. If you’re interested in driving best business practices around the globe, while being mentored by - and working alongside - super-smart, driven, team-oriented people, ClickTime may be the place for you.

Type: Computer Software

Job/Internship:
Software Development, Product Management, Marketing

**Description of organization:** Northwestern Mutual offers a personalized approach to discovering each client's financial needs and goals. Financial Representative Interns with Northwestern Mutual provide expert guidance and innovative solutions to help meet a client's financial objectives at every life stage. We work with our clients to create a plan that is tailored to their needs and allows them to achieve, maintain, and pass along financial security.

**Type:** Financial Services, Insurance

**Job/Internship:**
Financial Representative Intern

Interns with the Northwestern Mutual Financial Network have the same opportunities to build their careers as full-time representatives. Supported by our network of specialists, training programs and mentoring opportunities, interns have access to the resources, products and assistance they need to help their clients and build their practices. Like Financial Representatives, interns strive to understand their clients' goals and visions in order to uncover financial solutions that put them on a path to success. Financial Representative interns are in business for themselves – but they're not alone to uncover financial solutions that put them on a path to success.
