Major: Industrial Engineering and Operations Research

Class of 2013 Survey Results
The Career Center’s annual Career Destinations Survey of graduating seniors illustrates the variety of employment and graduate school choices made by students in a given major. Fields with four or less responses are not shown to protect the confidentiality of respondents.

Employers & Job Titles data includes full-time and part-time employment, and internships.

Please note: Students with multiple majors are represented in each major. For example, a double major in English and Computer Science will have responses included in both reports.

Please note, the information here represents combined data for the following majors as reported to us for this survey year: IEOR (Engineering) and Operations Research & Management Science (Letters & Science).
